LETTER OF RECOMMENDATION

It is with great pleasure that I write this letter of recommendation for **MUDDHASSIR KHADER ELAHEE** who was my student at Panimalar Engineering College for the past three years. Having taken classes in Engineering Thermodynamics on Thermal engineering I and II, I am impressed by his quest for knowledge and interest to learn new things. During my interactions with him I found him as a diligent and an independent with an inquiring mind and keen insights.

As an analytical thinker, he enjoys intellectual challenges and as an eager learner faces them with confidence. He is a well-read motivated student who has impressed me with his passion and mastery of the pivotal technicalities in the field of Mechanical Engineering. He has also taken part in a 6-week internship program in **Roboram education** in which he showed his interest as a Robotic engineer.

He is eager to update the day to day technological development related to his field of interest. It is an evidence of his will in order to compete with advances in the technology.

Having supervised his progress as an ambitious articulate undergraduate student and a witness to his undeterred determination to excel. I wholeheartedly recommend MUDDHASSIR KHADER ELAHEE without any reservation for your University's post graduate program.

M. Dinesh Babu
